## Due Diligence

As part of our efforts to monitor and reduce the risk of slavery and human trafficking occurring in our supply chains, we have adopted the following due diligence procedures:

- Internal supplier audits
- External supplier audits

Our due diligence procedures aim to:

- Identify and action potential risks in our business and supply chains.
- Monitor potential risks in our business and supply chains
- Reduce the risk of slavery and human trafficking occurring in our business and supply chains.

## Risk and compliance

The Company has evaluated the nature and extent of its exposure to the risk of slavery and human trafficking occurring in its UK supply chain through:

- Evaluating the slavery and human trafficking risks of each new supplier.

We do not consider that we operate in a high-risk environment because:

The majority of our supply chain is based in the UK and in low-risk industries, such as internet software and services.

We do not tolerate slavery and human trafficking in our supply chains. Where there is evidence of failure to comply with our procedures by any of our suppliers, we will require that supplier to remedy the non-compliance.

## **Effectiveness**

The Company uses Key Performance Indicators (KPIs) to measure its effectiveness and ensure that slavery and human trafficking is not taking place in its business and supply chains. These KPIs are as follows:

- We will contact suppliers to enquire about their modern slavery practices every 12 months.
